STAMAR Project

Tipperary County Council and the Marine Institute are partners in the INTERREG IVB Atlantic Area project called STAMAR ('Showcase Technology Applicable to Maritime SMEs in the Atlantic Area').

The STAMAR project aims to improve the competitiveness and innovation capacity of SMEs in the maritime sector by facilitating technology transfer processes, particularly solutions which encourage sustainable business development and the protection of the environment. The project will conclude in June 2015.

Workshop

This workshop will appeal to research institutions, public agencies and SMEs/individuals with an interest in developing technology and/or inland water-based businesses. Participants will learn about examples of current research and innovation in this area and a number of case studies will be presented showcasing businesses, products and services developed from the application of research and technology innovation.
